Professional Experience

Software Engineer,
CloudKaptan Consultancy Services Pvt Ltd.

11/2021 – present | Kolkata, India

Our work domain here involved the development of end-to-end P2P lending / Investment portals and backend systems on salesforce. Our task here was to customize a standard LMS (Loan Management System) app built on salesforce as per customer requirements.

Responsibilities:-
- Customer interaction & requirement analysis.
- Solution design & development planning for end-to-end delivery.

Technical Experience :-
- Developed portal API's using Apex (Java Based) programming language and SOQL.
- Developed multiple Q2 portal functionalities on Salesforce projects using JSON, HTML, CSS, Javascript.
- Designed UI for multiple applications using LWC, Visualforce page, Javascript, SCSS and CSS. Experienced in mobile-first design approach.
- Integrating RESTful API with front end application using CL Portal - a product of Cloud Lending (Q2).
- Experienced in setting up Salesforce Experience Cloud Community.
- Salesforce Admin process setup like Flows, Process Builder, profiles, permission sets, and sharing settings.
- Worked with Salesforce Profiles, Roles, Permission sets, and sharing settings setup for access and security control in more two of the projects.
- Worked on data migration from clients legacy system to salesforce.

Web Developer, *Techtree Technologies*

06/2021 – 10/2021 | Kolkata, India

- Provided responsive, mobile first website development using HTML, CSS, React, JavaScript. Planned website development, converting mockups into usable web presence.
- Provided security maintenance and patching on website interface to maintain viability after launch.
- UI testing on multiple devices using BrowserStack.
